

FCL Components Touch Panels LCD Module with Touch Panels

Custom product

Overview

FCL Components' touch panels are adhered on the LCD module. This eliminates the tedious pasting work and reduces the customers' manufacturing and parts management processes.

Customers can choose either resistive or projected capacitive touch panels. Panels are available ranging from 4.3 to 21.5 inches in size.

Panels are suitable for a variety of equipment, such as machine tools, injection molding machines, medical equipment, POS terminals, inspection equipment, etc.

RoHS compliant

LCD module with touch panel

Features

Resistive touch panels + LCD module

- Resistive 4-wire light input load touch panel
- Light input force with dual input gesture supports PCAP comparable user experience
- Excellent noise resistance - best for industrial equipment
- Reliable input with finger, stylus pen, gloved finger and wet finger

Projected capacitive touch panels + LCD module

- Uses FID-154 series touch panels
- Multi-point simultaneous input is possible
